

FETEH M TEBEJE

■ FOUNDER, CEO

ABOUT

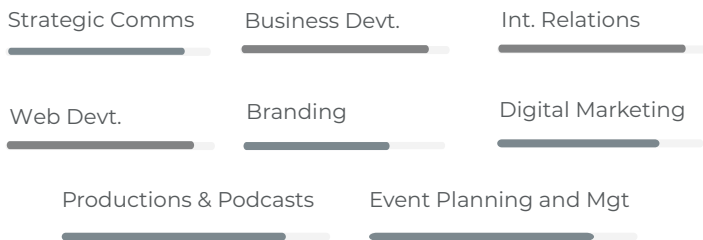

Mr. Fete M Tebeje, Founder and Executive Director of African Affairs Communication LLC, is a seasoned IT professional and communications specialist with expertise in communication/PR consulting, web development, digital marketing, productions, branding, and event management. Accordingly, Mr. Fete has over 12 Years of experience in different parts of the world, including Africa, Europe, Middle East, and the Americas. His firm provides services for clients with a specialized niche on working diplomatic messaging for African nations and institutions in different thematic areas. His entrepreneurial interest and multilingual profession allowed him to form various technical and consulting firms both in Africa and the US.

Working on major projects, such as Ebola Outbreak, Continental Free Trade Area, Arab Uprising, African Union branding, and African Union's 50th Anniversary alongside Peace and Security, supported him to devise his communication skillsets into different cultures and protocols. As part of a team, he worked on numerous Heads of State summits, high-Level and expert-level conferences covering events, meetings, and programs in different aspects.

Mr. Fete Believes that the principle or advocacy of our shared values can never be more precise than in our deed to campaign against others' perspective of our truth. He considers it a privilege and rightful to support organizations committed to a shared vision of a better world and strategic approach. In implementing a comprehensive digital communications strategy that promotes social change, Mr. Fete works to develop multiple databases for the African Diaspora, Press and Media houses, and the African Youth.

His previous experience on the African continent and his current endeavors in the USA has uniquely positioned him to look forward to all the different delegates' mindset across the globe. Furthermore, Adept at multitasking, working independently, or as part of a team, he's proven talent for spotting innovation opportunities, improving narrative, and working for the future generation. His online African Marketplace and his published kids' book series are part of his extra efforts in creating standard solutions for everyday problems, to mention just a few.
